GEBRUIKSAANWIJZING

1. ONDERDELEN

2. MONTAGE

A) Bevestig de twee zijpanelen in de breedte passend bij het voertuig, aan het rek. Gebruik de plastic montageclips om rek en zijpanelen aan elkaar te bevestigen.

B) Verbind de staanders en de stangen met elkaar met de stelschroef.

Schuif de plastic clips in de klemmen en haal de stangen door de klemmen.

C) Zet de parkerschroeven vast en bevestig de klemmen aan het rek. Bevestig de kunststof voeten aan de stangen.

D) Bevestig de inbusbout en de kunststof voet, aan de voet van de staander. Pas de hoogte aan met de stelschroef. Gebruik de inbusbout om het rek vast te klemmen tegen de vloer van het voertuig.

Hoogte min. 47 cm, max. 108 cm

2. MONTAGE

A) Befestigen Sie die beiden Seitenteile am Gepäckträger in der für das Fahrzeug geeigneten Breite. Verwenden Sie die Kunststoffklammern, um das Gestell und die Seitenwände zu befestigen.

B) Verbinden Sie die Pfosten und die Stangen mit der Stellschraube. Schieben Sie die Kunststoffklammern in die Klammern und ziehen Sie die Stangen durch die Klammern.

C) Ziehen Sie die selbstschneidenden Schrauben an und befestigen Sie die Klammern am Gestell. Befestigen Sie die Kunststofffüße an den Stäben.

D) Befestigen Sie die Inbusschraube und den Kunststofffuß am Fuß des Pfostens. Stellen Sie die Höhe mit der Einstellschraube ein. Verwenden Sie die Inbusschraube, um den Gepäckträger am Fahrzeugboden zu befestigen.

OPERATING INSTRUCTIONS

1. PARTS

2. ASSEMBLY

A) Adjust the wire mesh assembly to the appropriate size to fit your vehicle. Use the plastic clips to fix the wire mesh and slide mesh assembly together.

B) Connect the support bar and upper tube by adjustable screw. Insert the clip into the mesh holder, to pass the tube through the wire mesh holder.

A

B

C) Assemble the screw, then fix the wire mesh holder on wire mesh assembly. Assemble the top plastic feet on the tubes.

D) Assemble the long screw and bottom plastic feet on the support bar. Adjust the height by the adjustable screw. Use the long screw to tighten the guard against the floor of the vehicle.

2. MONTAGE

A) Ajustez l'ensemble grillage métallique à la taille appropriée pour votre véhicule. Utilisez les clips en plastique pour fixer l'ensemble grillage métallique et grillage coulissant ensemble.

B) Reliez la barre de support et le tube supérieur par le boulon. Insérez le clip dans la pince, pour faire passer le tube dans le porte-maille métallique.

C) Assembler la vis, puis fixer le support de grillage sur l'ensemble de grillage. Monter les pieds supérieurs sur les tubes.

D) Monter la longue vis et les pieds inférieurs sur la barre de support. Régler la hauteur à l'aide de boulon. Utilisez la longue vis pour fixer le support au plancher du véhicule.
